MEMORANDUM

SUBJECT: Public Comment on MMT Waiver Application

FROM: Barry D. Nussbaum, Chief *B. Nussbaum*
Field Operations and Compliance Policy Branch

TO: Docket A-91-46

On October 3, 1991 Ms. Susannah Prindle of 4909 Cumberland Ave., Chevy Chase, MD 20815 phoned me to register her intense objection to the use of MMT in gasoline. She said we used to have lead in gasoline and it was a poor public health idea to add toxic elements to gasoline. She asserted these elements may possibly endanger the health of adults and children.
